Administrator: Laura Suszta

IK/2866/1(2026)

Budapest, 27 April 2026

Institution identifier: FI80798

CERTIFICATE

This is to certify that Bruno Carlos Dos Santos Melicio (Neptun code: A1W636, birth date and place: 1997. 10. 16., São Vicente, Republic of Cabo Verde) successfully defended their doctoral dissertation in Informatics in a public PhD defense on 20 April 2026, receiving the qualification summa cum laude.

The candidate pursued their doctoral studies within the Data Science, Networks, Information Systems doctoral program.

Following the successful defense, the doctoral procedure will proceed in accordance with institutional regulations. The documentation of the defense was submitted to the Doctoral Council of Informatics, which will subsequently forward its proposal to the University Doctoral Council for final approval. This administrative and approval process may take several months to complete.
